WORK EXPERIENCE

Jones Lang LaSalle (JLL) **Bellevue, WA**
Director, Risk Advisory *May 2023 – Present*
Analyst, Value & Risk Advisory (Valuation Products) *July 2021 – April 2023*

Risk Advisory

- **Recurring revenue:** Responsible for $300K in annual recurring revenue from recurring bank and investor portfolio valuations, advising clients on the pricing and market risk of their real estate credit portfolios to support capital, risk and portfolio management decisions.
- **Significant risk transfer:** Support alternative investment clients on due diligence for multiple significant risk transfer (SRT/CRT) transactions, each generating $100K–$200K in advisory fees, delivering rigorous analysis of bank-originated credit portfolios of 500+ assets under tight deal timelines.
- **Non-performing loans:** Maintain and update quarterly a loan-level cash flow model valuing a granular non-performing loan (NPL) portfolio of 100,000+ assets, supporting the bank's disposal and pricing strategy.

Valorem – Valuation Management Platform (Product Management)

- Contributed to the launch of Valorem, JLL's flagship valuation management platform; worked directly with clients and JLL teams in Australia, the US, Europe and other markets to demo, sell and onboard clients as part of $10M worth of contracts.
- Managed the Valorem roadmap, working cross-functionally with engineering, marketing and other teams to define requirements and features based on client needs while staying aligned to JLL's vision.
- Developed strategies for seven new or existing products and features, including physical climate risk and net-zero carbon transition for real estate assets; presented pitches to C-suite executives to obtain leadership buy-in.
- Conducted market and user research across two key client markets and defined metrics and KPIs for two launched products, informing feature prioritization and the JLL valuations digital products roadmap since Q3 2021.

PricewaterhouseCoopers (PwC) **Chicago, IL**
Technology Consulting Associate *August 2019 – July 2021*
Technology Consulting Intern *June 2018 – August 2018*

- Led the testing phase of a large-scale financial system implementation for a Global Fortune 500 client, meeting key deadlines and saving 100+ hours of work through Jira issue tracking and testing automation.
- Drove requirements-gathering workshops with a Global Fortune 500 client, identifying 10 new major requirements from user pain points and building functional specifications for a new financial system.
- Helped drive strategy at a Fortune 500 client for a four-business-unit divestiture, planning the IT divestiture and preparation for a multi-million-dollar deal announcement.
- Identified post-launch performance metrics and wrote SQL queries the client used to track system health and performance after go-live.

Earlier Experience **2016 – 2019**

- Research assistant at Northwestern (Python scraper and network models over ~20,000 records) and Kellogg (1,500-participant online study, R models); data analyst intern, U.S. Department of State; VP of Technology, Student Holdings, leading 6 developers.

EDUCATION

Northwestern University, Evanston, IL **June 2019**
