WORK EXPERIENCE

Jones Lang LaSalle **Bellevue, WA**
Global Product Management, Director *May 2023 – Present*
Global Product Management, Analyst *July 2021 – April 2023*

- Contributed to the launch of Valorem, our flagship product. Worked directly with clients and JLL teams in Australia, the US, Europe, and other global markets to demo, sell, and onboard clients as part of $10M worth of contracts.
- Managed the Valorem roadmap, working cross-functionally with engineering, marketing, and other teams to define requirements and features based on client needs, while remaining aligned to JLL's vision.
- Developed strategies for seven new or existing products and features on the Valorem platform, including products focused on entering the emerging market spaces of physical climate risk and net zero carbon transitioning for real estate assets. Presented pitches to c-suite executives to obtain leadership buy-in.
- Conducted market and user research across two key client markets to understand customer sentiments and trends, to inform feature prioritization, and to define the overarching JLL valuations digital products roadmap since Q3 of 2021.
- Defined metrics and KPI's for two launched JLL products to track product health and success, and to help align product priorities to the company's vision and objectives.

PricewaterhouseCoopers **Chicago, IL**
Technology Consulting Associate *August 2019 – July 2021*
Technology Consulting Intern *June 2018 – August 2018*

- Led the testing phase of a large-scale financial system implementation for a Global Fortune 500 client, driving testing to meet key deadlines and saving 100+ hours of work through Jira issue tracking and testing automation.
- Drove requirement gathering workshops with a Global Fortune 500 client, identifying 10 new major key requirements from user pain points and building functional specifications for new financial system design.
- Helped drive strategy at a Fortune 500 client for a four business unit divestiture, communicating with the client the strategy behind IT divestiture planning and the preparation required for a multi-million dollar deal announcement.
- Identified key performance metrics post-launch and scripted SQL queries to track metrics, used by the client to keep track of system health and performance in the post go-live state for 3 months and counting.

EDUCATION

Northwestern University, Evanston, IL **June 2019**
Bachelor of Science in Computer Science **GPA: 3.54/4.00**
Completed the Kellogg Certificate Program for Undergraduates in Managerial Analytics
Relevant Courses: Human Computer Interaction; Software Development; Data Structures; Competitive Strategy

ACTIVITIES & PROJECTS

Student Holdings **Evanston, IL**
Vice President of Technology *February 2018 – February 2019*
Tech Manager *October 2016 – February 2018*

- Served as the Vice President of Technology for Student Holdings, a student club that operates portfolio companies on campus serving both the Northwestern and Chicago-area communities.
- Led the design and implementation of two portfolio company websites and technology platforms visited by about 12,000 visitors a year, reducing yearly IT maintenance costs by 5%.
- Managed and mentored a team of 6 developers handling daily technology needs of the portfolio companies, teaching them both the technology and how their role fulfilled the needs of the business.
